Specification

- Plates (Right & Left) available in both - Titanium & Stainless steel.
- Plate features locking compression holes and round locking holes that accept 3.5mm and locking screws.
- Plates are available in two lengths - 60mm & 70mm

Indication for use

- The locking calcaneal plates address complex fractures of the calcaneus.

The locking calcaneal plate is indicated for fractures and osteotomies of the calcaneus including, but not limited to, extraarticular, intra-articular, joint depression, tongue type, and severely comminuted fractures.
