## Specification

- Plates available in Stainless steel & Titanium material.
- Plate accepts Lcpva screws 2.4mm Screws & 3.5mm cortical and locking screws.
- Plate available with 3,4,5,6,7,9 & 11 holes.
- Plates are left & right configured.

## Indication for use

- The 3.5 mm LCP Hook Plate is indicated for fractures, osteotomies and nonunions of small bones, including the ulna, radius, tibia and fibula.
