

## LCP MANDIBLE PLATE, SQUARE, 4 HOLES, MALLEABLE

<b>CAT. NO.</b>	<b>LCP MANDIBLE PLATE, SQUARE, 4 HOLES, MALLEABLE</b>
708.094	LCP MANDIBLE Plate, square, 4 holes, malleable, THICKNESS 1.0 MM

### Specification

- Plate is available in Titanium.

### Indication for use

- The square, 4-hole, malleable LCP Mandible Plate is designed for internal fixation of mandibular fractures, particularly in areas requiring adaptable contouring. Its malleability allows for customized shaping to fit the anatomical contours of the mandible, ensuring optimal stabilization during the healing process.
