709.342	LCP MANDIBLE Plate, straight, 12 holes, Thickness 2 MM
709.372	LCP MANDIBLE Plate, straight 20 holes, Thickness 2 MM

Specification

- Plate is available in Titanium.

Indication for use

- The straight LCP mandible plate is designed for the internal fixation of mandibular fractures, particularly in the Subcondylar and condylar regions. Its straight configuration allows for stable fixation with minimal bone contact, promoting optimal healing.
